

NORWAY

AUNUN LODGE – ORKLA RIVER

Pristine Atlantic Salmon fishing in the heart of Norway's Trondheim Basin

NORWAY is sometimes referred to as the second home of Atlantic Salmon fishing. It was in the 1920's that exploratory British anglers came to try their luck and to their delight discovered rivers which were packed with giant specimens.

Fish weighing 40 lbs were not uncommon. Times have moved on however the Orkla River remains one of Norway's best salmon rivers and the stretch at Aunan provides some of the most enchanting fly-fishing water available. If the river is seductive then the same can be said for the surroundings in equal measure. Nestled into a tranquil but steeply sloped valley, surrounded by mature woodland, well-kept farms, and secluded from major roads or railways, this is as much a retreat as it is a great salmon river.

The Fishing

Comprising of twelve named pools, each one with different attributes and character the fishing is as varied as it is seductive. Most of the beats are double bank and the ones, which are not, are rotated at midday thereby ensuring the level of exclusivity that you would expect on such an appealing stretch of water. For avid fly-fisherman who want to experience beautiful surroundings, comfortable lodging, the opportunity to come across some very large fish, (20.3 kilo/45 lb salmon caught in 2004), and convenient access from the UK and Europe you need look no further.

Aunun Lodge

The accommodation at Aunan consists of a number of extremely comfortable cabins ranging from twin bedroom lodges to a mini chalet with 4 bedrooms, en-suite bathrooms, Jacuzzi and riverside terrace making it ideal for families or larger groups. Although each of the lodges has its own kitchenette that is about as close as you need to be to a kitchen as a dedicated chef ensures that your appetite will always be sated. Most of the meals are taken in the main lodge however equally the options are always open for bank-side lunches and barbecues.

Best Time To Go

The season on the Orkla runs from 1 June — 31 August. The opening weeks of the season are fairly classic spring salmon fishing with the biggest fish entering the system although in fewer numbers. The beginning of July sees the numbers increase as the grilse run gets into full swing. The season continues until the end of August with techniques changing as the season progresses from fast sinking lines during the early weeks to floating lines and smaller flies as the season progresses.

Wise Men Tip
